## BONA OILED WOOD FLOOR CLEANER

**Bona Oiled Wood Floor Cleaner** is a ready-to-use cleaner designed for cleaning wooden floors treated with a buffed oil system. It cleans and nourishes the surface at the same time for increased protection.

It can be used with the Bona Spray mop or with similar systems. Alternatively, simply use the cleaning spray with a cloth

- Tough on dirt, gentle on the floor
- Effective and easy to use
- Fully biodegradable

### Technical data

|--------------------|--|
| pH value:          | Approx. 7  |
| Shelf life:        | 3 years from date of production in unopened original container                           |
| Storage/transport: | The temperature must not fall below +5° C or exceed +25° C during storage and transport. |
| Safety:            | Unclassified   |
| Disposal:          | Empty containers are recyclable as hard plastic.   |
| Sizes:             | 1 litre spray bottle / 2.5 Lt refill bottle / 850 ml Bona Spray Mop Cartridge            |

### Preparation

Remove loose dust / grit etc. using a vacuum cleaner or other dry cleaning method, such as the Bona Dusting pad.

### Application

Spray the Cleaner on a small section of the floor.

Wipe the floor using a Bona Cleaning Pad. Rinse or replace the cleaning pad after approx. 10 – 15 m<sup>2</sup> to ensure that the dirt and cleaner residues can be taken from the floor whilst cleaning. Rinsed pads must be well wrung out before use.

On stubborn spots, rubber heel marks or sticky spills etc. spray the Cleaner directly onto spot and leave it for a few minutes. Scrub the spot clean with a cleaning pad.

NB. It is recommended that UV cured oil coatings, often found on engineered flooring systems, are maintained using Bona Wood Floor Cleaner. Bona Oiled Wood Floor Cleaner may be used on these floors but care must be taken to wipe the floor thoroughly to remove to avoid residues and any possible build-up on the surface.

### Important notes

The information provided is prepared to the best of our current knowledge and makes no claim to be complete. The User is responsible for establishing that the product and recommendations herein are fit for the designated purpose, wood type and present situation before use. Bona can only guarantee the delivered product. A professional and thereby successful application of the product is beyond our control. If in doubt make a preliminary test. The User is required to read and understand all information contained on package labels and safety data sheets before using this product.
