

# Ready, Set...GO!

Bona Traffic GO combines the simplicity and efficiency of a one-component finish with the durability and performance of a two-component product. Designed for high traffic floors in residential and commercial applications. Application is a simple process - just shake and GO with a built-in hardener that's only activated when the finish is applied.

- ▶ One-component water-based top coat - with two-component finish performance
- ▶ No mixing needed. No wastage. No mess
- ▶ Quicker and easier - just shake and GO
- ▶ Built in hardener - activated when applied
- ▶ Non-toxic, less than 3% VOC content
- ▶ Non-yellowing, clear appearance
